G. J. Frederick, who has been in charge of the Phoenix ranch for the past year, is contemplating starting an automobile line between Las Vegas and Santa Rosa, giving daily service both ways. It is estimated that the trip can easily be made in three hours. If it proves a profitable venture, another line will be established to Mora, going via Los Alamos and Rociada. The matter is being considered by the local commercial clubs in both towns and everything possible will be done to encourage the enterprise.

### CITIZENS SHOULD INSTALL MAIL BOXES

The mail carriers of this city have made a canvas of their respective routes with a view of having all who will put mail boxes at their residences. They have succeeded in getting 124 patrons to give orders for boxes. They can be purchased of Vogt & Lewis for 65 cents put up at the residence. This will greatly facilitate the delivery of mail. The postoffice department, earnestly requests that the patrons cooperate with it, and place a mail box at some convenient place for the receipt of mail. This is not for the benefit of the carriers but for the service. A mail carrier is not allowed to work more than eight hours a day, and all mail not delivered in that time is taken to the office and not delivered until next day. A careful estimate has been made which shows that it will save three hours a day if every one receiving mail will place a box for mail at the front door or on the gate post. This during the rush season would mean much better service. This can be accomplished with an outlay of only 65 cents for each patron.
